

PlusPTT A3618

The PlusPTT A3618 combines the benefits and convenience of a rugged smartphone with the distinctive features of a professional POC Radio. It is dust, water, and shock resistant, and as tough as a radio, with IP68 protection. The 5.7" multi-touch screen is protected by Gorilla® Glass. In addition to the standard Bluetooth, the device has an integrated NFC function. The A3618 also has 2W speakers and dual microphones for crystal-clear audio. The long-lasting 4800mAh battery pack with fast charging ensures optimal usability and reliable communication.

- Powerful PTT Radio and Handheld Smart Device
- Broad coverage with 4G/LTE and WiFi
- Perfect Switching between 4G/LTE and WiFi Networks
- IP68 & MIL810G protection
- Best in class with stylish design and high performance
